

Emergency Ice/Snow Routes

Please cut out and save this ad for information during winter snow and ice storms.

THE FOLLOWING NOTICE IS BEING ISSUED PURSUANT TO SECTION 5.684 OF THE EUGENE CITY CODE, 1971: During winter storms-sleet, freezing rain, or icy weather-or when one inch of snow or more accumulates on city streets, the City of Eugene may put into effect the provisions of the emergency ice/snow ordinance (Eugene Code 5.677 to 5.687). The ordinance prohibits parking along priority one, two, and three streets until the ban is lifted.

Parked and stalled vehicles interfere with snow removal operations. Prohibiting parking keeps critical street systems open and enables emergency vehicles, buses, and traffic to move safely. The ordinance gives the City the authority to tow vehicles parked or stranded along priority routes.

Sidewalks are an important part of Eugene's transportation system. Property owners are responsible for keeping sidewalks in front of their homes and businesses clear of ice and snow.

When the parking ban goes into effect, the City will notify local television stations (KEZI-TV,

KMTR-TV, KVAL-TV, KEVU-TV, KLSR-TV, Metro TV/Comcast 21), radio stations (KUGN-AM, KPNW-AM, KMGE-FM, KLCC-FM, KGNU-FM, KDUK-FM, KEHK-FM, KEUG-FM, KFLY-FM, KNRQ-FM, KODZ-FM, KRVM-FM, KSCR-AM, KUJZ-FM, KZEL-FM, KWVA-FM) and The Register-Guard.

If you live along a priority route, listen for updates during winter storms, call Public Works Maintenance at 541-682-4800 or go to www.eugene-or.gov if you have questions.

(This map has been adopted by Administrative Order.)
